

NAVFAC P-307 TRAINING

CATEGORY 3 CRANE SAFETY

NKO/NEL CATALOG NUMBER: NCC-C3CS-xx (with xx representing the latest rev)

TARGET AUDIENCE: Category 3 crane operator candidates and supervisors who assign/oversee these operations

SYNOPSIS: 'Category 3 Non-cab Operated Crane Safety' is designed to acquaint incidental crane operators with Navy requirements for the safe operation of category 3 non-cab operated cranes. Topics include NAVFAC P-307 familiarization, crane and lift types, communications, lifting requirements, basic rigging gear inspection and use, determining load weights, calculating capacities, and crane accident identification and response.

NOTE: Satisfactory completion of this course and NAVFAC P-307 appendix N requirements are required prior to operating category 3 cranes and hoists.

PREREQUISITE: None
