

NAVFAC P-307 TRAINING

LOAD TEST DIRECTOR

NKO/NEL CATALOG NUMBER: NCC-LTD-xx (with xx representing the latest rev)

TARGET AUDIENCE: New and prospective load test directors

SYNOPSIS: Load Test Director is designed to acquaint nominated personnel with Navy requirements for the safe load testing of weight handling equipment and provide a knowledge base on which to build upon with on-the-job experience. While emphasis is placed on personnel and equipment safety, trainees will be introduced to documentation and procedural requirements and the proper calculation of test loads.

PREREQUISITE: The applicable NAVFAC P-307 crane safety course for the types of cranes to be tested by the candidate.
